EXPERIENCE

Software Engineer

Self-Employed/Freelance

1/2025 - present

Built several apps for launch in app store including a social management app and a boat taxi hailer for an indigenous community. Updated and maintained website for OEIS, a national network of interventional and endovascular physicians.

Front-End Engineer

Quintara Biosciences

4/2023 - 1/2025

Contracted to build a workflow for DNA sequencing orders submitted by customers and academic institutions. Orders were configured for Google API to populate in a Google Sheet. Backend heavy with API integration and order creation.

Software Engineer, Safety Tools

Reddit

4/2020-2/2023

Created features for an internal review and ticketing tool for Safety Team to process user complaints. Tool allowed for configuration of permissions and user preferences. Owned projects such as creating an interface for a unique abuse type, hotkeys for common actions (combined \$1M+ in company savings).

Safety Operations Specialist

Reddit

5/2016-4/2020

Helped build the foundation for Reddit's Anti-Evil Operations Department. Designed content review tool and supported its software development. Assisted in launch of Violent Content, Prohibited Goods and Sexualization of Minors policies.

Legal and Policy Associate**YouTube****2/2014-5/2016**

Enforced Terms of Service, resolved complaints from global entities including government and law enforcement with regards to defamation, trademark, counterfeit, and privacy. Contributed to policy focusing on free speech.

Substitute Teacher**Oakland Unified School District****1/2009-6/2010**

Taught elementary, middle and high school students in an underserved community.

EDUCATION
